

PSN:B2B — Wholesale Overview 2026

psnb2b.com

Version 1.0 · Published 2026-04-23 · English edition

PSN:B2B is a crypto-native wholesale supplier of PlayStation™ Store gift cards for resellers, marketplaces and e-commerce storefronts. We operate across **12 PSN regions** with **190+ denominations**, a **REST API** for inventory and order automation, and a public **7-day code-replacement policy**.

Who this document is for

- Digital-goods resellers evaluating PSN:B2B as a wholesale supplier.
- Marketplace operators planning PSN inventory integration via API.
- Procurement teams building a short-list of crypto-settled gift-card suppliers.

At a glance

Regions served	12 (US, UK, DE, NL, PL, TR, IN, ID, HK, TH, SA, UA)
Denomination count	190+ active SKUs across all regions
Wholesale discount	15% baseline, scaling to 18% at \$10,000 lifetime spend
Minimum order quantity	None — partners can validate with a single-code order
Delivery SLA	< 60 seconds from on-chain payment confirmation
Payment methods	USDT (TRC20 / ERC20 / BEP20), BTC, ETH, LTC
Code-claim window	7 days (invalid / wrong-region / technical redemption failure)
API access	REST over HTTPS; HMAC-authenticated per-partner keys; see /api-docs
Team	Independent supplier, founded 2022 — 5–20 staff, International jurisdiction

Regional coverage & currency

Region	Currency	Notes
USA	USD	Broadest catalogue; USD codes redeem only on USA PSN accounts.
United Kingdom	GBP	UK-only redemption; multi-purpose voucher under UK VAT.
Germany / Netherlands	EUR	EUR codes redeem across EUR PSN regions (DE/NL/FR/IT/ES/AT).
Poland	PLN	Poland-only redemption.
Turkey	TRY	Typically 40–65% below USD equivalents — strongest arbitrage margin.

India	INR	Typically 20–40% below USD; strong fit for South Asia resellers.
Indonesia	IDR	Thin-inventory region; restocked continuously.
Hong Kong	HKD	APAC gateway; broad English-language catalogue.
Thailand	THB	Thin-inventory region; typically 6–8 active denominations.
Saudi Arabia	SAR	Serves the GCC gaming market; SAR pegged ~3.75 to USD.
Ukraine	UAH	On-chain settlement — unaffected by banking disruptions.

Why PSN:B2B

- **Crypto-native settlement.** No card-processor fees, chargebacks, or cross-border delays.
- **No hard MOQ.** Start with one code; discount tiers scale automatically with volume.
- **Strict region-lock labelling.** Every SKU carries its region code to prevent mismatches.
- **Public 7-day claim window.** Invalid or wrong-region codes are replaced or refunded.
- **Full REST API.** Inventory, orders, delivery, claims — documented at psnb2b.com/api-docs.
- **Independent supplier.** Not affiliated with Sony Interactive Entertainment or PlayStation.

How to get started

1. Create a B2B account at psnb2b.com.
2. (Optional) Request an API key from support@psnb2b.com.
3. Top up your balance in USDT / BTC / ETH / LTC.
4. Place your first order from [/store](#) or via the REST API.
5. Codes are released in < 60s and are available on your Orders page and via the API.
